

Report On World Forestry Day 2024

World Forestry Day” or “**International Day of Forest**” is celebrated worldwide every year on **21st of March** at the international level in order to raise awareness among the society about the importance of forests and the scores of benefits which are gained from them. In 2024, the theme for International Day of Forest is ‘**Forest and Innovation.**’ The ideology behind this theme is to battle against deforestation which requires new technological advancements.

A video presentation Contest was organized by Green Initiative Committee and Refreshment Committee, Sao Chang College. Out of 7 participants, the best three were selected and they are as follows: 1st – Miss.Nianhai P, BA 6th Semester
