

REPORT
ON EDUCATIONAL FIELD TRIP
ORGANIZED BY SCIENCE STREAM OF SAO CHANG COLLEGE, TUENSANG

On 31st October 2024, the faculty of science stream, Sao Chang College organized an educational field trip to Angangba village for their students.

A formal programme was conducted with Ms Sochem Lemla, B.Sc 5th semester, chairing the programme. Welcome note was given by Ms Naong Monyu, B.Sc 1st semester. Mr. Seyieneizo Benupfuno, Assistant Professor and Head, Dept. of Physics talked about the importance of Field Trip, emphasizing the importance of outside classroom activities for science students. Vote of thanks was given by Ms. Chemdan, B.Sc 1st semester and the formal programme concluded with benediction by Ms. K. Vidila Jing, Assistant Professor and Head, Dept. of Zoology.

ACTIVITIES

Mr. Tekameren Walling, Asst. Prof, Dept. of Botany and Ms. K. Vidila Jing, Asst. Prof, Dept. of Zoology led the activities for the Bio-Chem Students. The activities included collection of plant species for Herbarium keeping and insects for scientific studies.

Mr. Ciekrovoto Theluo, Asst. Prof, Dept. of Mathematics led the PCM students to conduct an activity based on the theme "*Fibonacci and the Nature*", which included counting of flower petals to observe the impressive phenomenon of nature that the number of flower petals in many flowers turns out to be one of the Fibonacci numbers. The objective of the activity is to convince and show to the students about the amazing connection that Mathematics has with the nature around us.

Through the field trip activities, the students got the opportunity to go for hands on experiments on the rich natural resources available in the region.

Altogether 10 students, 9 teaching staffs and 4 non-teaching staffs attended the field trip.
