➤ **Mentoring Session Conducted during Even Semester 2025**

As per the notification received via email from the Mentoring Committee, a mentoring session was conducted in April 2025. Additionally, another session was organized at the discretion of the mentors to offer further support to the students. Various modes were utilized for conducting the sessions: some mentors opted for one-to-one interactions, others conducted group sessions, and a few used platforms such as WhatsApp, phone calls, and emails. During both sessions, mentors engaged in detailed discussions regarding the students' academic performance and the status of their backlogs. Students were also guided on managing their academic workload while actively participating in co-curricular activities. It is noted that, apart from discussions related to academic and extracurricular balance, no specific grievances were reported by the students during either session.
