**Report on Plantation Drive – World Environment Day , 5<sup>th</sup> June 2024**

**Theme:** “*Land Restoration, Desertification and Drought Resilience*”

On the occasion of World Environment Day 2024, the college organized a plantation drive in alignment with the theme “*Land Restoration, Desertification and Drought Resilience.*” The initiative aimed to promote environmental sustainability and restore degraded land through active community participation.

The plantation drive was organized with the main objectives

1. To create awareness about land restoration
2. To encourage active participation of staff and students in environmental conservation.
3. To strengthen institutional collaboration with the Department of Land Resources.
4. To contribute towards sustainable development and ecological balance.

The Department of Land Resources generously donated **400 coffee saplings** to the college to support the programme. The college entrusted the **Department of Botany** with the responsibility of planning, coordinating, and overseeing the plantation activity.

A total of **37 volunteers**, including teaching and non-teaching staff, Girls Sochumers and officials from the Department of Land Resources, actively participated in the drive. The saplings were planted in designated areas within the campus to enhance green cover and contribute to long-term ecological balance. The programme reflected collective responsibility and commitment towards environmental protection and sustainable land management.

The plantation drive resulted in the successful planting of 400 coffee saplings on campus, increased awareness about sustainable land management, strengthened collaboration with the Department of Land Resources, enhanced campus greenery for long-term environmental sustainability, and fostered a strong sense of environmental responsibility and community engagement among participants.

  
Tongpangkoka Chang  
Assistant professor & HoD  
Department of Botany.
