

# DEPARTMENT OF CHEMISTRY

JUNE 2021- MAY 2022

| PLAN OF ACTION                                                                     | ACTION TAKEN REPORT                                                                                                                |
|------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Preparation of Hand Sanitizer                                                      | Prepared 10 litres of Hand sanitizer.                                                                                              |
| Project on Chemistry Lab Manual                                                    | Incomplete                                                                                                                         |
| Summer project                                                                     | Summer project on world famous chemist and outreach programme on covid vaccine successfully conducted                              |
| Celebration of Chemistry week from October 17-23, 2021                             | Chemistry week was organized from 20 <sup>th</sup> to 24 <sup>th</sup> September 2021                                              |
| National Science Day Commemoration in collaboration with other science Departments | Successfully conducted with events including poster competition, model making competition, debate and skit show from the students. |

## FUTURE PLAN OF ACTION FOR THE PERIOD JUNE 2022 TO MAY 2023

1. To continue with chemistry week during the month of September 2022
2. Project on chemistry lab manual since it could not be materialised during the last academic year
3. Summer project on preparation of natural dyes and outreach programme on free tuition to the neighbourhood students
4. To construct wooden almirahs/ Racks for keeping chemicals
5. To install Exhaust Fan and fire extinguisher in the chemistry Lab
6. To come up with some mechanism for waste disposal method.
7. National Science Day on 28<sup>th</sup> February 2023 to be celebrated in collaboration with other science departments.
