REPORT ON INTERDEPARTMENTAL SEMINAR

*Organized by: **RESEARCH COMMITTEE**, Sao Chang College
In collaboration with: **Alumni Committee**, Sao Chang College*

The Research Committee conducted its 8th Interdepartmental Seminar in collaboration with the Alumni Committee. Conducted in hybrid mode for the first time, the venue was in the College Conference Hall, chaired by Dr. S Arenla, Assistant Professor in Botany & Coordinator Research Committee.

Title of the program: Listen Learn and Grow Together

Date: 04-10-2024

Objectives:

To present, learn and discuss on varied specialization, recent trends and developments, promote research oriented academic interest among the faculties; collaboration and growth among likeminded faculties from various academic institutions.

Description:

The first session of the Seminar was taken up by an Alumni of Sao Chang College, Dr. Parimal Chandra Bhomick, Assistant Professor Department of Chemistry, St. Joseph University, Chumoukedima Nagaland with the talk titled “Sustainable Delivery of Agrochemicals”

The talk, “Sustainable Delivery of Agrochemicals” based on research lead by Dr. Parimal and his associates aimed at investigating Delivery of Agrochemicals that would be efficient, effective, innocuous was most eloquently delivered.

Dr. Parimal emphasized on the growing need to research and the development of sustainable delivery of agrochemicals to address the need of sustenance for the growing global population. He also highted the challenges and strategies being researched and reported the findings of their research using Iron based Metal Organic Framework and their polymer composites for sustainable and controlled delivery of herbicides.

The second session titled “From abundance to waste: The challenges for effective resource management in Yangpi Village” was presented by Mr. Takumpuba Lomou, Assistant Professor, Department of English, Sao Chang College Tuensang.

Based on a comprehensive study of the Resources, primarily agricultural & forest products from Yangpi Village under Tuensang district, Mr. Lomou presented the reality of wasteful expending of the resources leading to limited economic benefits due to limited access to market, lack of proper storage mechanism and transportation issues. He distinctly communicated the aim of the study which is to identity the root cause of limited utilization of resources and to propose possible solutions for sustainable development of the community through proper management and utilization of resources.

To address the challenges of resource management in Yangpi Village, he recommended for a comprehensive approach, focused on improving infrastructure (transportation-road), promoting market access, and empowering local communities. He also proposed for

Training and Capacity Building of the Community, implementation and utilization of Government Schemes such as CMMFI – Chief Ministers Micro Finance Initiative and promotion of Agro-Tourism to facilitate the generation of income of the village population thereby improving the local economy while also promoting environmental sustainability.

The session concluded with a vote of thanks from Dr. Soyimla Akum, Asst Prof. Dept. of English. The rapporteur for seminar was Mr. Seyieneizo, Asst Professor Dept. of Physics.

Outcome:

The participants gained knowledge on the advantages of sustainable delivery of agrochemicals in achieving long term agricultural productivity, also the need to focus on research on eco-friendly development which will ensure sustainability in all areas, livelihood, health and environment. The seminar also provided the platform to learn about the efficient use of resources available in the villages; in order to ensure effective growth in terms of productivity and economic sustenance, the gaps that exist in terms of poor infrastructure, facilities and linkages must be addressed through relevant initiatives.

NAGALAND, TUENSANG

Inter-departmental seminar held at Sao Chang College

By EMN

Updated: Oct 04, 2024 7:50 pm

Faculty and students of Sao Chang College pose for a photograph during an inter-departmental seminar on Friday.

DIMAPUR — The Research Committee, in collaboration with the Alumni Association of Sao Chang College, successfully conducted an inter-departmental seminar on Friday through a hybrid mode.

The seminar, chaired by Dr. S Arenla, assistant professor of Botany, had two scientific sessions based on recent researches in multidisciplinary area.

The first presenter, Dr. Parimal Chandra Bhomick, an alumnus of **Sao Chang College** and assistant professor of Chemistry at St. Joseph University, Chümoukedima, highlighted his recent findings on sustainable delivery of agrochemicals through online mode.

The second presentation on the topic “From abundance to waste: The challenge of effective resource management in Yangpi village” was delivered by Takumpuba Lomou, assistant professor of English.

The presentation was followed by an interactive session.

The seminar concluded with a vote of thanks delivered by Dr. Soyimla Akum, assistant professor of English.
